TO: Clerk of Superior Court of Riverside County and All Parties

RE: Watermaster Report for Calendar Year 2010

We have the honor of submitting the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 2010.

The provisions of Paragraph III and Paragraphs V through XII of the Judgment in Case No. 78426, entered April 17, 1969, became effective from and after January 1, 1971. The Judgment requires that the Watermaster report to the Court and to each Party in writing not more than seven months after the end of each year, or within such other time as the Court may fix, on each determination made by said Watermaster pursuant to the Judgment and such other items as the Parties may mutually request or the Watermaster may deem to be appropriate.

Accordingly, this report is submitted herewith under date of August 1, 2011, and presents the findings of the Watermaster for Calendar Year 2010 and summarizes the five-year period 2005 through 2009.

Provisions of the Judgment require that Western and San Bernardino Valley provide groundwater replenishment if certain base rights are exceeded. The determination of replenishment obligations for the five-year period 2005 through 2009 indicates that Western and San Bernardino Valley are not required to provide additional imported water for replenishment.

We, and each of us, hereby certify that this is a true and correct Report of the Watermaster for work performed by us, and under our supervision, for Calendar Year 2010 pursuant to the requirements of the Judgment.

Respectfully submitted,
WESTERN-SAN BERNARDINO WATERMASTER
BySamuel H. Fuller
John V. Rossi

CHAPTER I

CHAPTER I

INTRODUCTION

Provisions of the physical solution set forth in the Judgment in Case No. 78426, Western Municipal Water District of Riverside County et al., vs. East San Bernardino County Water District et al., entered April 17, 1969, in the Superior Court of the State of California in and for the County of Riverside, established the entitlements and obligations of the two major water districts overlying the San Bernardino, Colton, and Riverside groundwater basins, namely San Bernardino Valley Municipal Water District (San Bernardino Valley) and Western Municipal Water District of Riverside County (Western).

The Court appointed a Watermaster, composed of two persons, to administer and enforce the provisions of the Judgment and to report annually to the Court and the parties. Samuel H. Fuller continues as the representative from San Bernardino Valley. John V. Rossi continues as the representative from Western.

The provisions of the Judgment became effective January 1, 1971; however, progress reports were filed with the Court for calendar years 1969, 1970, and 1971 reporting on the progress of verifications and initial determinations required by the Judgment. This report for calendar year 2010 includes a description and summary of the work completed during 2010 and also includes the annual accounting of extractions from the San Bernardino, Colton and Riverside Basin areas and the distribution of such extractions to the various service areas for calendar year 2009. The scope of this report for 2010 and a history of the litigation leading to the physical solution settling the case are set forth in some detail in succeeding paragraphs.

Scope of Report

Paragraph XIII(e) of the Judgment requires the Watermaster to report to the Court and each Party not more than seven months after the end of each year.

The Annual Reports of the Western-San Bernardino Watermaster for calendar years 1969 thru 1971 reported on the verifications and initial determinations required by the Judgment including the safe yield of the San Bernardino Basin Area and the determination of the Adjusted Rights of the Plaintiffs. Beginning with the 1972 Report, the Watermaster began the annual accounting in accordance with the Judgment provisions. This report presents the activities of the Watermaster for calendar year 2010 together with the annual accounting of extractions and deliveries for calendar year 2009.

History of Litigation

Before the turn of the twentieth century, the various water service organizations diverting surface water from the Santa Ana River and pumping from the underground water basins supplied by the underflow of the Santa Ana River and its tributaries have from time to time engaged in litigation over water rights within the San Bernardino, Riverside, and Orange County areas.

On October 18, 1963, the Orange County Water District (OCWD) filed suit against the City of Chino and others, seeking an adjudication of water rights against more than 2,500 water users in the Santa Ana River Watershed tributary to Prado Dam. Included among the defendants were the Chino Basin Municipal Water District (now Inland Empire Utility Agency), Western Municipal Water District of Riverside County (Western), and San Bernardino Valley Municipal Water District (San Bernardino Valley). Thirteen cross complaints were filed in 1968, which extended the adjudication to more than 1,500 water users in the area downstream from Prado Dam, which included OCWD. Thus, some 4,000 parties were involved in the suit, including the three upper districts and OCWD.

With a case of this magnitude, it became obvious that every effort should be made to arrive at an equitable settlement and a physical solution in order to obviate the enormous expense and unwieldy litigation which would be involved if the case were brought to trial.

Attorneys and engineers representing the four major districts and a large number of the defendants worked diligently in order to effect a settlement and some type of physical solution which would prove acceptable to all parties.

As a result, in May of 1968, an outline of a proposal for settlement of the case was prepared and a committee, composed of attorneys and engineers for the parties, commenced preparation of the settlement documents.

In June, 1968, the Court held a hearing on the motions which it had received requesting a preliminary injunction and an order of reference. The plaintiff OCWD, however, was concerned with the necessity of bringing the case to trial within the statutory period, and therefore, on July 15, 1968, submitted a motion to set the complaint in the case for trial. On October 15, 1968, the trial was commenced and adjourned after a half day of testimony on behalf of the Plaintiff.

Shortly thereafter, the parties filed settlement documents with the Court, including a stipulation for Judgment, and on April 17, 1969, the Court, entered the stipulated Judgment, thus terminating the many years of controversy over water rights along the Santa Ana River involving the issues and parties included in the case of Orange County Water District vs. City of Chino, et al.

During the settlement negotiations, it became apparent that the San Bernardino Valley entities would participate only in a part of the Orange County settlement, in the belief that they had no responsibility for the waters of the Santa Ana River downstream from the point of rising water at Riverside Narrows. Therefore, the settlement of the OCWD action established an obligation of San Bernardino Valley for the delivery of 15,250 acre-feet of Base Flow annually at the Riverside Narrows, subject, however, to adjustment for quality.

As a result of the Orange County settlement, it became apparent that a second settlement would be necessary between the Riverside and San Bernardino entities who

diverted water from the Santa Ana River surface and groundwater sources supplied by the Santa Ana River and tributaries above the Riverside Narrows.

For some time, increasing withdrawals from groundwater resources above Bunker Hill Dike (San Jacinto Fault), which supplied in large part the water requirements of San Bernardino and Redlands as well as the Riverside exporters, had been the cause of concern to the exporters in Riverside County. As a result, on March 1, 1963, a suit was filed by Western, and others, seeking a general adjudication of water rights within the San Bernardino Basin Area. This suit preceded the filing of the Orange County suit, and it was decided that this suit could well be used as a vehicle for a physical settlement between Riverside and San Bernardino interests.

Following extensive negotiations between Riverside and San Bernardino interests, a physical settlement was completed and documents delineating the settlement were entered in the Superior Court of the State of California in and for the County of Riverside on April 17, 1969, being Judgment No. 78426.

Summary of Judgment No. 78426

The physical solution as agreed upon and as set forth in the Judgment states that all instructions and orders of the Court are to be administered and enforced by a Watermaster consisting of a committee of two persons, one of whom shall be nominated by San Bernardino Valley and the other by Western and appointed by the Court.

The Judgment directed the Watermaster to make certain initial determinations and to verify the amounts of water diverted and pumped from streams and groundwater basins embraced by the Judgment where such amounts had been assumed for purposes of the Judgment. Upon completion of the verifications and initial determinations, compliance with the Judgment requires an annual accounting of groundwater and surface water flows and diversions within the various basins in order that the Watermaster may properly report to the Court the comparisons of the year-by-

year operations with the verified entitlements and an accounting as to the replenishment obligations or credits indicated by such comparison. The items verified or determined initially and to be reported on annually are as follows:

	Watermaster Determination Required by Judgment	Verified for Five Calendar Years Ending with 1963	To Be Determined Annually from and after 1971
1.	Total actual average annual extractions from the San Bernardino Basin Area by entities other than plaintiffs for use within San Bernardino County.	x	x
2.	The natural safe yield of the San Bernardino Basin Area based upon the cultural conditions equivalent to those existing during the five-calendar year period ending with 1963.	1	1
3.	The annual 'adjusted right" of each Exporter (Plaintiff) to extract water from the San Bernardino Basin Area based upon the percentage of the natural safe yield determined by the methods used in Table B-2 of the Judgment.	x	
4.	The annual production by plaintiffs for comparison with adjusted right determined in item 3 next preceding.		X
5.	Annual discharge from the City of San Bernardino Water Quality Control Plant to the river as to quantity and quality.	2	x
6.	Average annual extractions from the Colton Basin Area for use outside San Bernardino Valley.	X	x
7.	Average annual extractions from the Riverside Basin Area within San Bernardino County for use outside San Bernardino Valley.	X	X
8.	The average static water levels within the Colton Basin and Riverside Basin within San Bernardino County as determined by the three wells listed in Judgment.	3	X

	Watermaster Determination Required by Judgment	Verified for Five Calendar Years Ending with 1963	To Be Determined Annually from and after 1971
9.	The average annual extractions from that portion of the Riverside Basin Area in Riverside County which are tributary to the Riverside Narrows for		
	use in Riverside County.	Х	X
10.	Annual amounts of water extracted for use within Western from the San Bernardino Basin and the area downstream therefrom to the Riverside Narrows which have been exported for use outside the area	x	~
	tributary to the Riverside Narrows.	Α	X
11.	Annual amount of water extracted for use within San Bernardino County from the San Bernardino Basin Area and Colton Basin Area for use on lands which are not tributary to the Riverside Narrows.	4	x
12.	Reduction in return flow now contributing to base flows at Riverside Narrows which results from conversion of agriculture using water within Western to domestic or other uses connected to sewage or waste disposal system, the effluent from which is not tributary to the rising		
	water at Riverside Narrows.	5	X

Determined initially by supplemental order of the Court to be 232,100 acre-feet per annum. Such amount is subject to the continuing jurisdiction of the Court.

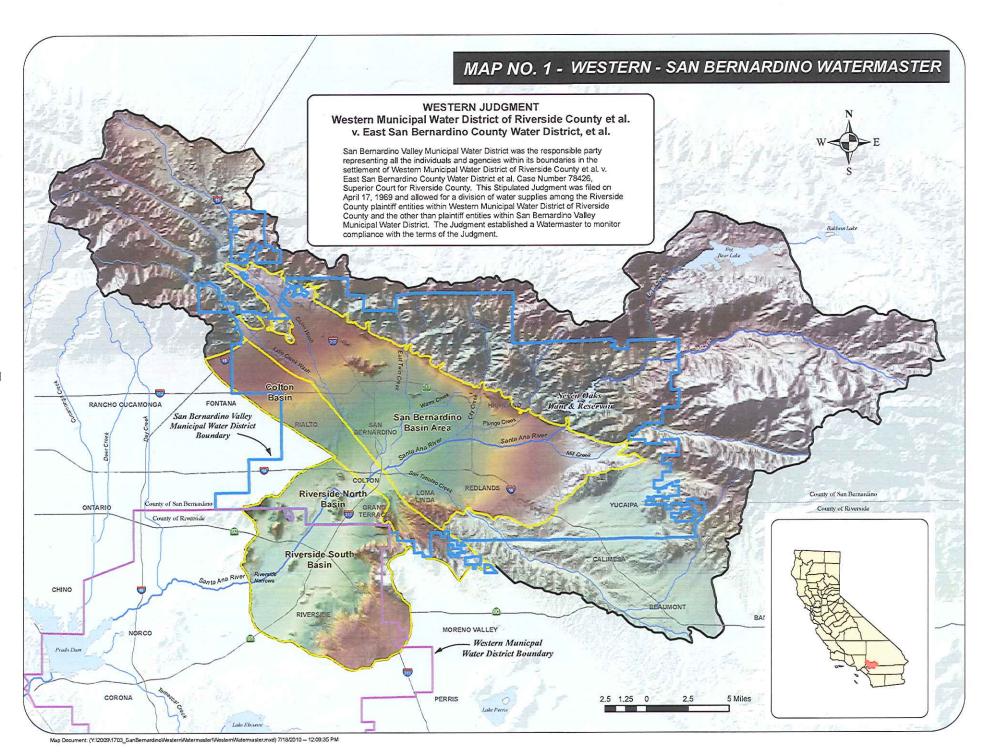

The foregoing initial determinations and verifications required by the Judgment have been completed and were reported in the *Annual Report* of the *Western-San Bernardino Watermaster for Calendar Years 1971 and 1972* and continue to be reported in each annual report of the Watermaster. Map No. 1 illustrates the boundaries of the groundwater basins covered by the Judgment.

² Assumed for purposes of Judgment to be 16,000 acre-feet annually, verification not required.

³ Established at 822.04 feet above sea level, based on fall season of 1963.

⁴ Revised by Watermaster during preparation of the Annual Report for calendar year 1974.

⁵ Average for 5 years ending with 1963 established by Judgment to be 3,916 acres; verification not required.

CHAPTER II WATERMASTER ACTIVITIES

CHAPTER II WATERMASTER ACTIVITIES

The Watermaster activities have included principally the collection, tabulation, and analysis of data, the maintenance of records, and the preparation of the annual report which presents the determinations and findings of the Watermaster as required by the Judgment.

Groundwater Extractions

The most important data required for implementing the provisions of the Judgment are the annual tabulations of the groundwater extractions and surface water diversions made within the San Bernardino, Colton, and Riverside Basin Areas. These extractions and diversions were initially determined and verified for the 1959-63 Base Period and were assembled and summarized in the Watermaster Report on Verification of Extractions, Volume 1 from the San Bernardino Basin Area (consisting of three parts), Volume 2 from the Colton Basin Area, Volume 3 from the Riverside Basin Area in San Bernardino County, and Volume 4 from the Riverside Basin Area in Riverside County. The Watermaster has established a system for tabulating annual notices of groundwater extractions and surface diversions filed with the State Water Resources Control Board or, since Calendar Year 2005, the Watermaster. The filed data are verified by the Watermaster and provide the basis for the annual accounting of extractions as required by the Judgment. Such extractions have been determined for calendar year 2009 and are summarized herein. Listings of the verified extractions by each individual owner for calendar year 2009 are assembled in Report of Watermaster, Volumes 1-2009, 1A-2009, 2-2009, 3-2009, and 4-2009.

Distribution of Extractions

In addition to the annual accounting of the extractions from each Basin, the Judgment also requires a determination as to the distribution of such extractions to the various service areas.

The distribution of verified extractions from the Colton and Riverside Basin Areas and the distribution of the Plaintiffs' extractions from the San Bernardino Basin Area were determined initially for the 1959-63 Base Period, and were reported in Report of Watermaster, Volume 5, entitled *Distribution of Extractions*. Such distribution has been determined for calendar year 2009 and is summarized herein. Detailed work sheets are assembled in Report of Watermaster, Volume 5-2009.

The Watermaster is also required to determine the amount of water extracted from each of the various Basin Areas and delivered to areas not tributary to Riverside Narrows. Such amounts fall into two classifications, described as follows:

- Extractions from the San Bernardino Basin Area, Colton Basin Area, and Riverside Basin Area for use within Western on lands not tributary to the Riverside Narrows.
- 2) Extractions from the San Bernardino Basin Area and Colton Basin Area within the San Bernardino Valley Municipal Water District for use on lands not within Western nor tributary to the Riverside Narrows.

The amount of water extracted and delivered under Classification No. 1 was determined initially for the 1959-63 Base Period and was reported in the Report of Watermaster, Volume 6, dated June, 1972. The amount determined for calendar year 2009 is summarized herein. Detailed work sheets are assembled in the Report of Watermaster, Volume 6-2009.

The amount of water extracted and delivered under Classification No. 2 was determined for the 1959-63 Base Period and the additional years 1970 and 1971 and was published in the Report of Watermaster, Volume 7, dated February, 1973. The amount determined for calendar year 2009 is summarized herein. Detailed work sheets are assembled in the Report of Watermaster, Volume 7-2009.

Groundwater Level Measurements

Groundwater surface elevation data required for three key wells located in the Colton Basin Area and the Riverside Basin Area within San Bernardino County are currently furnished by the City of Riverside, San Bernardino Valley and Western.

These data are shown in both tabular and graphical form for calendar years 1963 thru 2009 in Volume 8 of previous Watermaster reports. The determination for calendar year 2010 is shown in the Report of Watermaster, Volume 8-2009.

Stream Flow and Water Quality Measurements

The program of stream flow measurements conducted by the United States Geological Survey (USGS) in cooperation with the Watermaster has continued to provide basin inflow and stream diversion data.

The Western-San Bernardino Watermaster participates with the Santa Ana River Watermaster in part of the expense of the cooperative program with the USGS on surface water gages and water quality monitors at various locations. These expenses are presented in reports filed by the Santa Ana River Watermaster. The costs incurred for stream flow data collected and analyzed by the USGS on behalf of the Western-San Bernardino Watermaster are set forth in Table No. 1.

Field Inspections

During the verification of the 2009 extractions from the San Bernardino, Colton and Riverside Basin Areas, many of the pumping facilities installed for extraction of groundwater and diversion of surface water were visited by the Watermasters or their representatives. Contact was made with many of the extractors to review their methods of computing extractions for the annual reports that were filed with the Watermaster.

During the initial verification program in the San Bernardino Basin Area, it was found that many groundwater producers and several diverters of surface water did not file their extractions and diversions with the State Water Resources Control Board. This condition was found to exist in many locations during the current year, which again

necessitated inspection trips and contacts with various owners by the Watermasters or their representatives.

Western's Replenishment Credits in the San Bernardino Basin Area

In 2004, Western and San Bernardino Valley began to implement paragraphs VI(b)6 and V(a) of the Judgment with respect to the importation by Western of water from the State Water Project for replenishment of the San Bernardino Basin Area. Under these provisions of the Judgment, and by agreement with San Bernardino Valley, Western acquired 3,500 acre-feet of water in 2004 and another 2,500 acre-feet in 2005 from The Metropolitan Water District of Southern California for replenishment of the San Bernardino Basin Area. Table 3, 17A and 18 have been added and/or modified to account for such replenishment and future extractions. The accumulated excess of replenishment over extractions by Western shall be shown as a Net Credit, and Western shall have the right to extract its Net Credit, or any portion thereof, at any future time, and transfer such right to any Plaintiff in this action, to be extracted in addition to any other rights such transferee may have. To the extent permitted by agreement with San Bernardino Valley, replenishment may be made to offset prior extractions, and shall be shown in the appropriate tables as a Net Obligation.

San Bernardino Valley and Western Water Rights from the Santa Ana River

San Bernardino Valley submitted its first application for water rights from the Santa Ana River to the State Water Resources Control Board on October 3, 1991. In this application, San Bernardino Valley requested that it be authorized to divert and store water from the Santa Ana River and its tributaries at Seven Oaks Dam and in the San Bernardino Basin Area. The State Water Resources Control Board (SWRCB) did not accept the application because the SWRCB had previously determined in Order WR 89-25 that the Santa Ana River watershed was a fully appropriated stream system. San Bernardino Valley and Western replaced this application with a new joint application and a petition for reconsideration of the fully appropriated stream status on May 31, 1995. This

second application requested that San Bernardino Valley and Western be authorized to divert and store water from the Santa Ana River and its tributaries at Seven Oaks Dam and in the San Bernardino Basin Area.

Seven Oaks Dam is located on the Santa Ana River upstream from the where the Santa Ana River enters the San Bernardino Basin Area. The United States Army Corps of Engineers completed construction of the Seven Oaks Dam on the Santa Ana River in calendar year 1999.

SWRCB conducted a hearing on the petition to reconsider the fully appropriated stream status in 2000 and found in Order WR 2000-12 that the fully appropriated stream status could be removed to allow consideration of the application from San Bernardino Valley and Western. In November 2002, San Bernardino Valley and Western submitted a second joint application. Other agencies along the Santa Ana River also submitted applications. On May 2, 3, 4 and 8, 2007 the SWRCB conducted a hearing for numerous applications on the Santa Ana River. In 2008, the SWRCB began to issue permits to several of the applicants.

During calendar year 2008, the SWRCB granted Temporary Permit Number 21212 to store and divert water from the Santa Ana River at Seven Oaks Dam to San Bernardino Valley and Western. Under Temporary Permit Number 21212, San Bernardino Valley and Western diverted 7,210 acre-feet of water from the Santa Ana River that had been captured by Seven Oaks Dam into the Santa Ana River recharge facilities. The Watermaster is in the process of determining what portion of the 7,210 acre-feet may be New Conservation under the terms of the Judgment.

During calendar year 2009, the SWRCB granted Temporary Permit Number 21232 to store and divert water from the Santa Ana River at Seven Oaks Dam to San Bernardino Valley and Western during the diversion season, January 1, 2009 through June 29, 2009. San Bernardino Valley and Western diverted 345.4 acre-feet of water from the Santa Ana River into the Santa Ana River recharge facilities under Temporary

Permit Number 21232. The SWRCB also granted Temporary Permit Number 21245 which authorized San Bernardino Valley and Western to divert water from the Santa Ana River during the period June 30, 2009 through September 30, 2009. San Bernardino Valley and Western diverted 20.0 acre-feet from the Santa Ana River to the Santa Ana River Recharge Facilities under Temporary Permit Number 21245.

On June 29, 2010 the SWRCB granted Permit Number 21264 and Permit Number 21265 pursuant to Application Number 31165 and Application Number 31370 respectively, to San Bernardino Valley and Western. Permit Number 21264 and Permit Number 21265 authorize San Bernardino Valley and Western to divert water from the Santa Ana River at numerous locations in amounts up to 198,317 acre-feet from January 1 to December 31 each year.

Watermaster Collaborative Advisory Process

The Watermaster has been collecting information and preparing reports to the Court, parties and interested individuals and agencies the appropriate information for 40 years. The Watermaster is seeking to improve the ways in which it prepares and presents the information required under the Judgment, and how that information is provided and conveyed to the Court and the public. The Watermaster elected to invite all interested persons and agencies to participate in a public process and on June 24, 2010 conducted the first Western – San Bernardino Watermaster Collaborative Advisory Process meeting. The public has shown interest and several subsequent meetings have been conducted. The discussions at the meetings have identified numerous issues that the Watermaster and the participants are exploring through a collaborative discussion process. The issues presently under discussion relate to the activities within the San Bernardino Basin Area, the Safe Yield and the Natural Safe Yield of the San Bernardino Basin Area and New Conservation. The Watermaster will be presenting more details of these discussions in future annual reports.

TABLE NO. 1 COSTS TO THE PARTIES FOR USGS SURFACE WATER MEASUREMENTS USED BY WESTERN-SAN BERNARDINO WATERMASTER

CHAPTER III

EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA

CHAPTER III

EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA

The extractions from the San Bernardino Basin Area have been classified as first, those extractions and diversions for use by other than Plaintiffs and second, those extractions and diversions for use by Plaintiffs.

The total verified extractions by other than Plaintiffs for calendar years 1971 through 2009, together with five-year totals, are shown on Table No. 2. The individual work sheets for the 2009 verifications are included in Report of Watermaster, Volume 1-2009.

The total verified extractions from the San Bernardino Basin Area by Plaintiffs for the 1959-63 Base Period and calendar years 1971 through 2009 are shown on Table No. 3. The individual work sheets for the 2009 verifications and distribution of extractions by Plaintiffs are included in Report of Watermaster, Volume 1A-2009 and Volume 5-2009.

For reference, the Adjusted Rights of other than Plaintiffs and Plaintiffs are also shown on Tables 2 and 3.

Paragraph VII of the Judgment entitled Water Discharged Across Bunker Hill Dike recites as follows:

San Bernardino Valley shall keep in force an agreement with the City of San Bernardino that the present annual quantity of municipal sewage effluent discharged across Bunker Hill Dike, assumed for all purposes herein to be 16,000 acre-feet annually, shall be committed to the discharge of the downstream obligations imposed on San Bernardino Valley under this Judgment or under the Orange County Judgment, and that such effluent shall comply with the requirements of the Santa Ana River Basin Regional Water Quality Control Board in effect December 31, 1968.

The Judgment does not charge the Watermaster with verification of the 16,000 acre-feet amount of sewage effluent discharge and the enforcement of the quality

requirements is considered to be the responsibility of the California Regional Water Quality Control Board — Santa Ana Region.

Prior to December, 1972, sewage effluent was discharged across the Bunker Hill Dike via Warm Creek (Plant No. 1) and the Santa Ana River (Plant No. 2). With the completion of the new Water Quality Control Plant at the "E" Street site (Plant No. 2) the total effluent discharge of the City of San Bernardino Water Quality Control Plant accrued to the Santa Ana River immediately upstream from the "E" Street Bridge. In January, 1973, the Watermaster in cooperation with the USGS began operation of a gaging station on the plant outfall to obtain a continuous record of the quantity and mineral quality of the sewage effluent discharged to the Santa Ana River. This station has been discontinued and Watermaster now relies on the City of San Bernardino for these data.

On April 1, 1996, the cities of San Bernardino and Colton began discharging their municipal wastewater effluent at a point several miles farther downstream from the historical discharge points, through the Rapid Infiltration and Extraction System (RIX). RIX is a 50-acre groundwater recharge and extraction system specifically designed to meet the filtration and disinfection requirements of *California Code of Regulations, Title* 22, for discharge in Reach Four of the Santa Ana River.

The Regional Water Quality Control Board had ordered the two cities to provide Title 22 treatment levels of their discharge prior to its entrance into the Santa Ana River. An evaluation indicated that a system for groundwater recharge and immediate extraction would accomplish the required treatment levels and would be more cost effective than a conventional tertiary treatment system at the existing plant sites. The RIX system is located adjacent to the Santa Ana River in the Riverside Basin Area in San Bernardino County. The project was constructed by the two cities with the Santa Ana Watershed Project Authority acting as the construction manager.

In order to ensure that the secondary effluent recharged to the groundwater system would be fully treated and recovered, it was determined that the amount of RIX extractions should exceed the amount of recharged water. The over-extraction, combined with the fact that the RIX discharge point is located several miles downstream from the prior discharge points of the two cities, had an immediate impact upon the flows at both Riverside Narrows and Prado. The effect of the changed points of discharge on the key wells (see Chapter V, Minimum Water Surface Elevation) is being monitored closely with monthly depth to water readings at the wells.

The discharge to the Santa Ana River from the Cities of San Bernardino and Colton has been determined by the Watermaster as shown on the following table:

CHAPTER IV

NATURAL SAFE YIELD OF THE SAN BERNARDINO BASIN AREA AND ADJUSTED RIGHTS OF PLAINTIFF EXPORTERS

CHAPTER IV

NATURAL SAFE YIELD OF THE SAN BERNARDINO BASIN AREA AND ADJUSTED RIGHTS OF PLAINTIFF EXPORTERS

The Watermaster has determined the natural safe yield of the water supply accruing to the San Bernardino Basin Area at 232,100 acre-feet per annum from which the Adjusted Rights of Plaintiff exporters were also determined. Such determination of safe yield and Adjusted Rights of Plaintiff exporters was set forth in detail in Report of Watermaster, Volume 9, entitled *Determination of Natural Safe Yield of the San Bernardino Basin Area and Adjusted Rights of Plaintiff Exporters*.

The Adjusted Rights of Plaintiffs' extractions from the San Bernardino Basin Area, classified according to service areas and based on the natural safe yield of 232,100 acre-feet per annum have been summarized on the following table for ease of reference. The Adjusted Right of other than Plaintiffs was also based on the natural safe yield of the San Bernardino Basin Area and was determined to be 167,238 acrefeet. Such adjusted rights were not effective until January 1, 1972; therefore, the 1971 base rights for both Plaintiffs and other than Plaintiffs are based on the actual average annual extractions from the San Bernardino Basin Area during the five-year base period 1959-1963.

The Judgment provides for continuing jurisdiction of the Court in the following matters:

- The hydrologic condition of any one or all of the separate basins described in this Judgment in order to determine from time to time the safe yield of the San Bernardino Basin Area, and
- 2) The adjusted rights of the Plaintiffs as required to comply with the provisions hereof with respect to changes in the natural safe yield of the San Bernardino Basin Area. If such changes occur, the Court shall adjudge that the adjusted rights and replenishment obligations of each party shall be changed proportionately to the base rights.

In order to provide a basis for future determination of safe yield, the Watermaster maintains a continuing program of collecting and analyzing current hydrologic data pertinent to the annual water supply to, and utilization of water from, the San Bernardino Basin Area.

Such data will be summarized and reported from time to time in subsequent supplemental reports of the Watermaster.

PLAINTIFF ADJUSTED RIGHTS CLASSIFIED ACCORDING TO SERVICE AREA (All Values in Acre-Feet)

Plaintiffs	Total Extractions in San Bernardino Basin Area		Delivery to San Bernardino Basin Area	Delivery to Colton Basin and Riverside Basin Area in San Bernardino County	Delivery to Areas Outside San Bernardino Valley	
City of Riverside (including those rights acquired as successor to the Riverside Water Company and the Gage Canal Company)	52,199	2	1,427	1,230	49,542	2

¹ Effective January 1, 1972.

² The Adjusted Rights allocated to the City of Riverside and The Regents of The University of California were established at 52,169 and 566 acre-feet per annum respectively. On the basis of an amended recordation filling for the 1959-63 Base Period, the adjusted right for The Regents of the University of California was reduced to 536 acre-feet, and the City of Riverside adjusted right was increased to 52,199 acre-feet.

CHAPTER V

EXTRACTIONS FROM COLTON BASIN AREA AND RIVERSIDE BASIN AREA IN SAN BERNARDINO COUNTY

CHAPTER V

EXTRACTIONS FROM THE COLTON BASIN AREA AND RIVERSIDE BASIN AREA IN SAN BERNARDINO COUNTY

For Use Outside San Bernardino Valley Municipal Water District

The extractions from the Colton Basin Area and that portion of the Riverside Basin Area within San Bernardino County for use outside San Bernardino Valley during the 2009 calendar year have been verified by the Watermaster as 378 acre-feet and 16,538 acre-feet, respectively. The individual work sheets for these determinations are included in Report of Watermaster, Volume 2-2009 (Verified Extractions From the Colton Basin Area-Table 4), Volume 3-2009 (Verified Extractions From Riverside Basin Area Within San Bernardino County-Table 4), and Volume 5-2009 (Distribution of Extractions From the San Bernardino Basin Area, Colton Basin Area, and Riverside Basin Area for Use Outside the San Bernardino Valley Municipal Water District-Table 57).

For Use Within San Bernardino Valley Municipal Water District

Provided minimum water surface elevations within the Colton Basin and that portion of Riverside Basin Area within San Bernardino County are maintained by San Bernardino Valley Municipal Water District, extractions from the Colton Basin Area and that portion of the Riverside Basin Area within San Bernardino County for use within San Bernardino Valley are not limited and therefore verification of such amounts are not specifically required by the Judgment. However, proper allocation of the total extractions from these areas for use on areas outside San Bernardino Valley necessitates the verification of these extractions. The individual work sheets for the 2009 verification and distribution of extractions are also included in Report of Watermaster, Volumes 2-2009, 3-2009 and 5-2009.

The extractions from the Colton Basin Area and the Riverside Basin Area in San Bernardino County for calendar years 1971 through 2009 are summarized in Tables 4 and 5 following.

¹ Extractions for use in Riverside County are limited to the verified extractions for the five-year Base Period 1959-63. Note: 5-year totals corrected to reflect any corrections on Table 5, page 1 of 2.

Minimum Water Surface Elevations

Extractions from the Colton Basin Area and that portion of the Riverside Basin Area within San Bernardino County for use in San Bernardino Valley are not limited, provided that the average static water surface elevation as measured at wells numbered 1S/4W-21Q03S, 1S/4W-29H01S, and 1S/4W-29Q01S is not less than 822.04 feet, as set forth in the Judgment. This elevation is determined each year by averaging the lowest static water level occurring in each of the three wells at or near the same time of the year.

A map showing the locations and hydrographs of the 2010 static water surface elevations in the three key wells are shown on the following pages. Data pertinent to the key wells as well as the records of historic water surface measurements are included in Report of Watermaster, Volume 8-2009 entitled *Ground Water Surface Elevations in Wells Numbered 1S/4W-21Q03S, 1S/4W-29H01S, and 1S/4W-29Q01S Located Within the Colton Basin Area and Riverside Basin Area in San Bernardino County through December,* 2010.

The lowest static water surface elevation measured in each of the three wells during 2010 is as follows:

Well Number	Date of Measurement	Elevation of Water Surface
1S/4W-21Q03S (Johnson #1)	Dec. 1, 2010	871.18
1S/4W-29H01S (Flume #2)	Nov. 3, 2010	836.29
1S/4W-29Q01S (Flume #5)	Nov. 3, 2010	829.15
	Average	845.54

Thus, the lowest average fall water surface elevation for calendar year 2010 is 0.44 feet higher than the 2009 average of 845.10 and 23.50 feet higher than the 1963 average of 822.04.

CHAPTER VI

EXTRACTIONS FROM THE PORTION OF RIVERSIDE BASIN AREA IN RIVERSIDE COUNTY WHICH IS TRIBUTARY TO THE RIVERSIDE NARROWS

Extractions

The extractions from that portion of the Riverside Basin area in Riverside County which is tributary to the Riverside Narrows for use within Riverside County for calendar year 2009 have been verified by the Watermaster as 35,519 acre-feet. The individual work sheets are included in Report of Watermaster, Volume 4-2009 entitled *Verified Extractions from Riverside Basin Area Within Riverside County* and are summarized in Table No. 6 following.

Return Flows

The Judgment provides for additional replenishment by Western if the urbanization of the Riverside Basin results in a diminution of the return flow accruing from the extractions described above and which would have otherwise accrued to the rising water at Riverside Narrows. The extent of such diminution is determined by the permanent reduction in the irrigated areas within the various water service organizations delivering water to the areas as compared to the areas served at the time the Judgment was entered. To the extent that such reduction causes an increase in the urban uses requiring sewage disposal through the Riverside Treatment Plant (the effluent which bypasses the Riverside Narrows), Western may, from time to time, be required to provide replenishment. Such irrigated acreages in the Riverside Basin Area in Riverside County at the time the Judgment was entered, from which return flow was tributary to Riverside Narrows, are set forth in Table D-5 of Appendix "D" of the Judgment and are as follows:

IRRIGATED ACREAGE IN RIVERSIDE BASIN AREA IN RIVERSIDE COUNTY PRESENTLY TRIBUTARY TO RIVERSIDE NARROWS WHICH UPON CONVERSION TO URBAN USES REQUIRING SEWAGE DISPOSAL THROUGH THE RIVERSIDE TREATMENT PLANT WILL BE DISCHARGED TO THE RIVER BELOW RIVERSIDE NARROWS

Entity Serving Acreage	Acres
Gage Canal Company Alta Mesa Water Company East Riverside Water Company Riverside Highland Water Company	1,752 65 926 <u>1,173</u>
TOTAL	3,916

The service areas of the companies listed in Table D-5 were investigated. Field investigation was not completed during this time period.

The number of dwelling units connected to the City of Riverside wastewater disposal system and a discharge unit factor of 0.22 acre-feet per year per dwelling unit was used to determine the wastewater discharged to the river from the converted lands. These data have been summarized for the years 2005 through 2009 and are shown on Table No. 7.

TABLE NO. 7

2009	257	38	284	0	579
TOTAL 2005-09	1,285	190	1,420	0	2,895

Table No. 7 shows that in 2009 the reduction in return flow contributing to Base Flow at Riverside Narrows resulting from the conversion of land from agricultural use to urban uses in the Riverside Basin Area was 579 acre-feet. Western's obligation associated with the land use conversion and resulting replenishment requirements are shown on summary Tables 16 (page 3 of 3) and 18.

TRIBUTARY TO THE RIVERSIDE NARROWS

CHAPTER VII

EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA, COLTON BASIN AREA AND RIVERSIDE BASIN AREA FOR USE WITHIN WESTERN ON LANDS THAT ARE NOT TRIBUTARY TO THE RIVERSIDE NARROWS

The extractions from the San Bernardino, Colton and Riverside Basin Areas which were delivered for use within Western on lands not tributary to the Riverside Narrows during calendar year 2009 were verified by the Watermaster to be 32,796 acre-feet. Said amount is summarized by entity on Table No. 8.

The detailed work sheets for this determination are contained in Report of Watermaster, Volume 6-2009, entitled *Verified Extractions from the San Bernardino Basin Area, Colton Basin Area, and Riverside Basin Area for Use Within Western on Lands Not Tributary to the Riverside Narrows.*

CHAPTER VIII

VERIFICATION OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND COLTON BASIN AREA WITHIN THE SAN BERNARDINO VALLEY MUNICIPAL WATER DISTRICT FOR USE ON LANDS NOT WITHIN WESTERN NOR TRIBUTARY TO THE RIVERSIDE NARROWS

Deliveries to Chino Basin

The extractions from the Colton and San Bernardino Basin Areas which were delivered for use on lands not within Western nor tributary to the Riverside Narrows, within the Chino Basin, during calendar year 2009 were verified by the Watermaster to be 24,308 acre-feet. Said amount is summarized by entity on Table No. 9.

The detailed work sheets for this determination are contained in Report of Watermaster, Volume 7-2009, entitled *Verification of Extractions from the San Bernardino Basin Area and Colton Basin Area Within the San Bernardino Valley Municipal Water District for Use on Lands Not Within Western Nor Tributary to the Riverside Narrows*.

Deliveries to Areas Other Than Chino Basin

Paragraph X of the Judgment also provides for replenishment by San Bernardino Valley to the extent exports are made from the San Bernardino Basin Area for use in the Yucaipa, San Timoteo, Oak Glen, and Beaumont Basins.

The results of the verification of the base period production from the San Bernardino Basin Area indicated that such exports were not made during the five calendar years ending with 1963. The verification of production for the 2009 calendar year indicated that during 2009, no water was exported to the Yucaipa, San Timoteo, Oak Glen or Beaumont Basins. During calendar year 2008, San Bernardino Valley

delivered 102 acre-feet of water from the San Bernardino Basin Area into The Metropolitan Water District of Southern California Inland Feeder Project during the startup testing of the Central Feeder Groundwater Banking/Conjunctive Use Project.

CHAPTER IX

ANNUAL ACCOUNTING OF EXTRACTIONS, DELIVERIES, AND REPLENISHMENT OBLIGATIONS

CHAPTER IX

ANNUAL ACCOUNTING OF EXTRACTIONS, DELIVERIES, AND REPLENISHMENT OBLIGATIONS

The Judgment requires the annual determination of extractions from the San Bernardino, Colton, and Riverside Basin Areas by Plaintiffs as well as Non-Plaintiffs, and further requires that a determination be made as to that portion of such extractions delivered to each of the service areas tributary to the Riverside Narrows as well as the deliveries to those areas not tributary to the Riverside Narrows. A comparison of the annual extractions and deliveries with the verified five-year Base Period amounts provides the basis for the annual accounting of replenishment obligations, if any, which accrue by reason of production or deliveries in excess of such amounts.

Plaintiffs' Extractions from San Bernardino Basin Area

The Judgment specifically defines the Adjusted Right of the City of Riverside, Gage Canal Company, Riverside Highland Water Company, Agua Mansa Water Company & Meeks and Daley Water Company, and the Regents of University of California to produce water from the San Bernardino Basin Area for use in three specific service areas. These rights, expressed in terms of the five-year total allowable production and the maximum allowable production in any one year, are shown on Tables 10 through 13. Tables 10 through 13 also show the actual extractions for use by the Plaintiffs in the specific service areas.

In accordance with paragraph VI(b)6 of the Judgment, San Bernardino Valley and Western have entered into agreements on December 22, 1981, February 25, 1985, and August 21, 1985 which provide for additional extraction and exportation of water from the San Bernardino Basin Area. The 1981 agreement and its amendments provide

for the City of Riverside, Riverside Highland, Agua Mansa Water Company & Meeks and Daley Water Company, and the Regents of University of California to extract and export up to 17,500 acre-feet per year of additional water from the San Bernardino Basin Area. The agreement and amendments also set forth certain payment provisions for such additional extractions and requires certification to the Watermaster that such provisions have been met. The footnotes on Table 10 indicate the amounts of water extracted by the Plaintiff Entities in calendar years 1981, 1983, 1984, 1985, 1986, 1987, 1988, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, and 2004.

Non-Plaintiffs' Extractions from San Bernardino Basin Area

The Judgment provides that the Non-Plaintiffs as a group can produce a specific amount of water from the San Bernardino Basin Area without incurring an obligation to replenish the basin with imported water. During the period 2005 through 2009, the Non-Plaintiffs' production exceeded the Adjusted Right. (See Table 17)

A comparison of Adjusted Rights plus additional water made available by agreement to actual production by Plaintiffs and Non-Plaintiffs for the period 2005 through 2009 is as follows:

Calendar Years 2005-09

	Allowable Extractions	Actual Extractions	Difference
Plaintiffs	323,410	293,191	(30,219)
Non-Plaintiffs	836,190	954,608	118,418_
	1,159,600	1,247,799	88,199

(All values in acre-feet)

Exports to Areas Not Tributary to Riverside Narrows

The Judgment limits the amount of water that can be extracted from the various basins for use on lands that are not tributary to the Riverside Narrows. Western and San Bernardino Valley are responsible for any obligation that may result from new exports to these nontributary lands located in Riverside County and San Bernardino County, respectively.

Tables 14 and 15 indicate the Adjusted Right and actual export for use on lands in Riverside County and San Bernardino County not tributary to the Riverside Narrows. Table 14 shows that during the period 2005 through 2009 the export by entities within Western was 34,943 acre-feet less than the Base Right. Table 15 shows that exports from San Bernardino Valley for use in San Bernardino County exceeded the Base Right for the period 1971 through 2009 by 453,855 acre-feet. The obligation of San Bernardino Valley resulting from this New Export is shown on Table 17.

The 1981 and 1985 agreements regarding extraction of additional water provide that the provisions of the Judgment related to export to areas not tributary to the Riverside Narrows shall not apply to additional water. Therefore, the additional water pumped by the City of Riverside in 1985, 1986, 1987, 1988, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, and 2004 has been excluded from amounts of export shown on Table 14. The additional water extracted by Non-Plaintiffs in 1985, 1987, 1988, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, and 2004 has not been excluded from the amount of export shown on Table 15; however, 10,681 acre-feet in 1985, 5,263 acre-feet in 1987, 14,187 acre-feet in 1988, 5,675 acre-feet in 1992, 11,134 acre-feet in 1993, 18,013 acre-feet in 1994, 14,993 acre-feet in 1995, 18,013 acre-feet in 1996, and 17,241 acre-feet of the 18,013 acre-feet in 1997, 18,013 acre-feet in 1998, 17,331 of the 27,994 acre-feet in 1999, 13,703 of the 20,428 acre-feet in 2000, 9,864 acre-feet in 2001, 11,259 acre-feet in 2002 and

11,222 acre-feet in 2004 of additional water extracted by Non-Plaintiffs have been excluded from the computation of new export on Table 17.

Summary of Western's Credits and Obligations

Table 16, Pages 1 of 3, 2 of 3, and 3 of 3, summarize Western's credits and obligations in the Colton Basin Area, Riverside Basin Area in San Bernardino County and Riverside Basin Area in Riverside County. The net accumulated credit for Colton Basin Area during the period 1971 through 2009 is 85,997 acre-feet as shown on Table 16, page 1 of 3. The net accumulated credit for Riverside Basin Area in San Bernardino County during the period 1971 through 2009 is 349,888 acre-feet as shown on Table 16, page 2 of 3. The net accumulated credit for Riverside Basin Area in Riverside County during the period 1971 through 2009 is 21,495 acre-feet as shown on Table 16, page 3 of 3.

Western and San Bernardino Valley have implemented paragraphs VI(b) 6 and XV (a) of the Judgment with respect to the importation by Western of water from the State Water Project for replenishment of the San Bernardino Basin Area. Under these provisions of the Judgment, and by agreement with the San Bernardino Valley Municipal Water District, Western began in 2004 to acquire from MWDSC water imported from the State Water Project for replenishment of the San Bernardino Basin Area. It is anticipated that this will be a continuing program, and Tables 3, 17A, and 18 have been added or modified to account for such replenishment and extractions. The accumulated excess of replenishment over extractions shall be shown as a Net Credit, and Western shall have the right to extract its Net Credit, or any portion thereof, at any future time, or transfer such right to any plaintiff in this action, to be extracted in addition to any other rights such transferee may have. To the extent permitted by agreement with San Bernardino Valley, replenishment may be made to offset prior extractions, and shall be shown in the appropriate tables as a Net Obligation.

Summary of San Bernardino Valley's Credits and Obligations

Table 17 summarizes San Bernardino Valley's credit and obligations in the San Bernardino, Colton and Riverside Basins. Paragraph VI of the Judgment entitled San Bernardino Basin Area Rights and Replenishment states in part that:

San Bernardino Valley shall also receive credit against any future replenishment obligations for all replenishment which it provides in excess of that required herein, and for any amounts which may be extracted without replenishment obligation, which in fact are not extracted.

The Judgment provides that San Bernardino Valley can carry forward to the current fiveyear period credits accumulated prior thereto. Obligations incurred by San Bernardino Valley have also been carried forward to the current five-year period. Accordingly the accumulated values shown on Tables 15 and 17 include amounts accumulated prior to 2005.

As indicated previously, the actual extractions from the San Bernardino Basin Area were greater than the Adjusted Right during the period 2005 through 2009. The actual extractions for 2009 exceeded the annual Adjusted Right; therefore, the extraction credit for 2009 was 0 as shown on Table 17. San Bernardino Valley receives credit for imported water that is used for replenishment in the San Bernardino Basin Area as previously discussed. San Bernardino Valley receives credit for Return Flows from Excess Extractions delivered within the SBBA, and from Direct Delivery of imported water within the SBBA. Accumulated credits for such replenishment, under-extraction, and return flows through 2009 total 460,129 acre-feet.

The accumulated obligation resulting from Excess Extractions and New Export during the period 1971 through 2009 is 242,855 acre-feet as shown on Table 17.

In summary, Table 17 shows that at the end of the five-year period 2005 through 2009 San Bernardino Valley's accumulated credits exceeded its accumulated obligations by 217,270 acre-feet.

Chapter V indicates that extractions in the Colton Basin Area and Riverside Basin Area within San Bernardino County for use in San Bernardino Valley are not limited provided that San Bernardino Valley maintains a specified minimum static water surface elevation in these Basins. During the five-year period 2005 through 2009 the actual water surface elevation remained higher than the specified minimum; therefore, no additional water is required for maintenance of these Basins.

Replenishment Requirements

Table 18 summarizes the accumulated credits and obligations of both Western and San Bernardino Valley. The credits exceeded the obligations for Western during the five-year period 2005 through 2009.

In summary, Table 18 shows that Western is not required to provide additional replenishment for obligations incurred during the five-year period 2005 through 2009.

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY THE CITY OF RIVERSIDE (INCLUDING THOSE RIGHTS ACQUIRED AS SUCCESSOR TO THE RIVERSIDE WATER COMPANY AND THE GAGE CANAL COMPANY)

- 1 Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27.
- 2 Maximum Allowable for any one year, not to exceed 130% of Adjusted Right.
- 3 Actual verified extractions from Table No. 3 of Watermaster Report.
- 4 Adjusted Right was not effective until January 1, 1972; thus the Base Right for 1971 is as shown in Appendix B, Table B-1 of the Judgment.
- 5 See Footnote 1 of Table 3.
- 6 Includes 1,148 acre-feet of additional extraction which are allowable under provisions of the December 22, 1981 Western-San Bernardino agreement prepared in accordance with paragraph VI(b)6 of the Judgment.
- 7 Includes 76 acre-feet of additional extraction which are allowable under provisions of the December 22, 1981 Western-San Bernardino agreement.
- 8 Includes 9,332 acre-feet of additional extraction which are allowable under provisions of the December 22, 1981 Western-San Bernardino agreement.
- 9 Includes 13,472 af of additional extraction which are allowable under provisions of the Feb 25, 1985 and the Aug 21, 1985 Western-San Bernardino agreements prepared in accordance with paragraph VI(b)6 of the Judgment.
- 10 includes 10,000 acre-feet of additional extraction which are allowable under provisions of the December 22, 1981 Western-San Bernardino agreement.
- 11 Includes 7,965 acre-feet of additional extraction which are allowable under provisions of May 20, 1987 amendment to the December 22, 1981 Western-San Bernardino agreement.
- 12 Includes 14,201 acre-feet of additional extraction which are allowable under provisions of January 20, 1988 amendment to the December 22, 1981 Western-San Bernardino agreement.
- 13 Includes 3,212 acre-feet of additional extraction which are allowable under provisions of April 3, 1991 amendment to the December 22, 1981 Western-San Bernardino agreement.
- 14 Includes 7,177 acre-feet of additional extraction which are allowable under provisions of April 4, 1992 amendment to the December 22, 1981 Western-San Bernardino agreement.
- 15a Includes 7,152 acre-feet of additional extraction which are allowable under provisions of June 16, 1993 amendment to the December 22, 1981 Western-San Bernardino agreement. 5,622 produced from Riverside's allowance for Riverside and 1,530 produced from SBVMWD's allowance for WMWD.
- 15b Includes 9,917 acre-feet of additional export which are allowable under provisions of June 16, 1993 amendment to the December 22, 1981 Western-San Bernardino agreement. 8,387 exported from Riverside's allowance for Riverside and 1,530 exported from SBVMWD's allowance for WMWD.
- 16a Includes 9,107 acre-feet of additional extraction which are allowable under provisions of March 2, 1994 amendment to the December 22, 1981 Western-San Bernardino agreement. 5,622 produced/exported from Riverside's allowance for Riverside and 3,485 produced from SBVMWD's allowance for WMWD.
- 16b Includes 10,859 acre-feet of additional export which are allowable under provisions of March 2, 1994 amendment to the December 22, 1981 Western-San Bernardino agreement. 7,374 exported from Riverside's allowance for Riverside and 3,485 exported from SBVMWD's allowance for WMWD.
- 17a Includes 5,799 acre-feet of additional extraction which are allowable under provisions of March 15, 1995 amendment to the December 22, 1981 Western-San Bernardino agreement. 5,622 produced from Riverside's allowance for Riverside and 177 produced from SBVMWD's allowance for WMWD.
- 17b Includes 8,357 acre-feet of additional export which are allowable under provisions of March 15, 1995 amendment to the December 22, 1981 Western-San Bernardino agreement. 8,180 exported from Riverside's allowance for Rivers
- 18a Includes 8,390 acre-feet of additional extraction which are allowable under provisions of March 6, 1996 amendment to the December 22, 1981 Western-San Bernardino agreement. 5,622 produced from Riverside's allowance for Riverside and 2,768 produced from SBVMWD's allowance for WMWD.
- 18b Includes 10,769 acre-feet of additional export which are allowable under provisions of March 6, 1996 amendment to the December 22, 1981 Western-San Bernardino agreement. 8,001 exported from Riverside's allowance for Riverside and 2,768 exported from SBVMWD's allowance for WMWD.

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY THE CITY OF RIVERSIDE (INCLUDING THOSE RIGHTS ACQUIRED AS SUCCESSOR TO THE RIVERSIDE WATER COMPANY AND THE GAGE CANAL COMPANY)

- 19a Includes 7,495 acre-feet of additional extraction which are allowable under provisions of February 19, 1997 amendment to the December 22, 1981 Western-San Bernardino agreement. 5,622 produced from Riverside's allowance for Riverside and 1,873 produced from SBVMWD's allowance for WMWD.
- 19b Includes 9,658 acre-leet of additional export which are allowable under provisions of February 19, 1997 amendment to the December 22, 1981 Western-San Bernardino agreement. 7,785 exported from Riverside's allowance for Riverside and 1,873 exported from SBVMWD's allowance for WMWD.
- 20a Includes 6,671 acre-feet of additional extraction which are allowable under provisions of April 30, 1998 amendment to the December 22, 1981 Western-San Bernardino agreement. 5,622 produced from Riverside's allowance for Riverside and 1,049 produced from SBVMWD's allowance for WMWD.
- 20b Includes 6,671 acre-feet of additional export which are allowable under provisions of April 30, 1998 amendment to the December 22, 1981 Western-San Bernardino agreement. 5,622 exported from Riverside's allowance for Riverside and 1,049 exported from SBVMWD's allowance for WMWD.
- 21a Includes 8,943 acre-feet of additional extraction which are allowable under provisions of January 6, 1999, 13th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 21b Includes 11,419 acre-feet of additional export which are allowable under provisions of January 6, 1999, 13th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 22a Includes 11,273 acre-feet of additional extraction which are allowable under provisions of August 16, 2000, 15th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 22b Includes 13,803 acre-feet of additional export which are allowable under provisions of August 16, 2000, 15th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 23a Includes 7,113 acre-feet of additional extraction which are allowable under provisions of February 7, 2001, 17th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 23b Includes 9,541 acre-feet of additional export which are allowable under provisions of Feburary 7, 2001, 17th and 18th Amendments to the December 22, 1981 Western-San Bernardino agreement.
- 24a Includes 13,263 acre-feet of additional extraction which are allowable under provisions of February 6, 2002, 19th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 24b Includes 15,748 acre-feet of additional export which are allowable under provisions of February 6, 2002, 19th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 25a Includes 1,215 acre-feet of additional extraction which are allowable under provisions of August 18, 2004 21st Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 25b Includes 3,872 acre-feet of additional export which are allowable under provisions of August 18, 2004 21st Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 26a Includes 2,459 acre-feet of State Water Project Water imported by Western. See Table No. 17A of Watermaster Report.
- 26b Includes 2,459 acre-feet of State Water Project Water imported by Western. See Table No. 17A of Watermaster Report.

TABLE NO. 10

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY THE CITY OF RIVERSIDE (INCLUDING THOSE RIGHTS ACQUIRED AS SUCCESSOR TO THE RIVERSIDE WATER COMPANY AND THE GAGE CANAL COMPANY)

- 1 Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27.
- 2 Maximum allowable for the five-year period is the same as the five-year-period Adjusted Right.
- 3 Actual verified extractions from Table No. 3.
- 4 Adjusted Right was not effective until January 1, 1972; thus the Adjusted Right for the period 1971-75 is more than the Adjusted Right for subsequent five-year periods.
- 5 Excludes 1,148 acre-feet in 1981 of allowable additional extraction. See Footnote 6 on Table 10 Page 1c of 2.
- 6 Excludes 1,148 acre-feet in 1981 and 76 acre-feet in 1983 of allowable additional extraction. See Footnotes 6 & 7 on Table 10 Page 1c of 2.
- 6a Excludes 1,148 acre-feet in 1981, 76 acre-feet in 1983, and 9,332 acre-feet in 1984 of allowable additional extraction. See Footnotes 6, 7, and 8 on Table 10 Page 1c of 2.
- 7 Excludes 1,148 acre-feet in 1981, 76 acre-feet in 1983, 9,332 acre-feet in 1984, and 13,472 acre-feet in 1985 of allowable additional extraction. See Footnotes 6, 7, 8, and 9 on Table 10 Page 1c of 2.
- 8 Excludes 76 acre-feet in 1983, 9,332 acre-feet in 1984, 13,472 acre-feet in 1985, and 10,000 acre-feet in 1986 of allowable additional extraction. See Footnotes 7, 8, 9, and 10 on Table 10 Page 1c of 2.
- 9 Excludes 76 af in 1983, 9,332 af in 1984, 13,472 af in 1985, 10,000 af in 1986, and 7,965 af in 1987 of allowable additional extraction. See Footnotes 7, 8, 9, 10, and 11 on Table 10 Page 1c of 2.
- 10 Excludes 9,332 af in 1984, 13,472 af in 1985, 10,000 af in 1986, 7,965 af in 1987, and 14,201 af in 1988 of allowable additional extraction. See Footnotes 8, 9, 10, 11, and 12 on Table 10 Page 1c of 2.
- 11 Excludes 13,472 acre-feet in 1985, 10,000 acre-feet in 1986, 7,965 acre-feet in 1987, and 14,201 acre-feet in 1988 of allowable additional extraction. See Footnotes 9, 10, 11, and 12 on Table 10 Page 1c of 2.
- 12 Excludes 10,000 acre-feet in 1986, 7,965 acre-feet in 1987, and 14,201 acre-feet in 1988 of allowable additional extraction. See Footnotes 10, 11, and 12 on Table 10 Page 1c of 2.
- 13 Number corrected during verification of 1990 extractions.
- 14 Excludes 7,965 acre-feet in 1987, 14,201 acre-feet in 1988, and 3,212 acre-feet in 1991 of allowable additional extraction. See Footnotes 11, 12, and 13 on Table 10 Page 1c of 2.
- 15 Excludes 14,201 acre-feet in 1988, 3,212 acre-feet in 1991, and 7,177 acre-feet in 1992 of allowable additional extraction. See Footnotes 12, 13, and 14 on Table 10 Page 1c of 2.
- 16a Excludes 3,212 acre-feet in 1991, 7,177 acre-feet in 1992, and 7,152 acre-feet in 1993 of allowable additional extraction. See Footnotes 13, 14, and 15a on Table 10 Page 1c of 2.
- 16b Excludes 3,212 acre-feet in 1991, 7,177 acre-feet in 1992, and 9,917 acre-feet in 1993 of allowable additional export. See Footnotes 13, 14, and 15b on Table 10 Page 1c of 2.
- 17a Excludes 3,212 acre-feet in 1991, 7,177 acre-feet in 1992, 7,152 acre-feet in 1993, and 9,107 acre-feet in 1994 of allowable additional extraction. See Footnotes 13, 14, 15a, and 16a on Table 10 Page 1c of 2.
- 17b Excludes 3,212 acre-feet in 1991, 7,177 acre-feet in 1992, 9,917 acre-feet in 1993, and 10,859 acre-feet in 1994 of allowable additional export. See Footnotes 13, 14, 15b, and 16b on Table 10 Page 1c of 2.
- 18a Excludes 3,212 af in 1991, 7,177 af in 1992, 7,152 af in 1993, 9,107 af in 1994, and 5,799 af in 1995 of allowable additional extraction. See Footnotes 13, 14, 15a, 16a and 17a on Table 10 Page 1c of 2.
- 18b Excludes 3,212 af in 1991, 7,177 af in 1992, 9,917 af in 1993, 10,859 af in 1994, and 8,357 af in 1995 of allowable additional export. See Footnotes 13, 14, 15b, 16b and 17b on Table 10 Page 1c of 2.
- 19a Excludes 7,177 af in 1992, 7,152 af in 1993, 9,107 af in 1994, 5,799 af in 1995, and 8,390 af in 1996, of allowable additional extraction. See Footnotes 14, 15a, 16a, 17a and 18a on Table 10 Page 1c of 2.
- 19b Excludes 7,177 af in 1992, 9,917 af in 1993, 10,859 af in 1994, 8,357 af in 1995, and 10,769 af in 1996, of allowable additional export. See Footnotes 14, 15b, 16b, 17b and 18b on Table 10 Page 1c of 2.
- 20a Excludes 7,152 af in 1993, 9,107 af in 1994, 5,799 af in 1995, 8,390 af in 1996, and 7,495 af in 1997 of allowable additional extraction. See Footnotes 15a, 16a, 17a, 18a on Table 10 Page 1c of 2 and 19a on Table 10 Page 1d of 2.
- 20b Excludes 9,917 af in 1993, 10,859 af in 1994, 8,357 af in 1995, 10,769 af in 1996, and 9,658 af in 1997 of allowable additional export. See Footnotes 15b, 16b, 17b, 18b on Table 10 Page 1c of 2 and 19b on Table 10 Page 1d of 2.
- 21a Excludes 9,107 af in 1994, 5,799 af in 1995, 8,390 af in 1996, 7,495 af in 1997, and 6,671 af in 1998 of allowable additional extraction. See Footnotes 16a, 17a, 18a on Table 10 Page 1c of 2 and 19a, 20a on Table 10 Page 1d of 2.
- 21b Excludes 10,859 af in 1994, 8,357 af in 1995, 10,769 af in 1996, 9,658 af in 1997, and 6,671 af in 1998 of allowable additional export. See Footnotes 16b, 17b, 18b on Table 10 Page 1c of 2 and 19b, 20b on Table 10 Page 1d of 2.
- 22a Excludes 5,799 af in 1995, 8,390 af in 1996, 7,495 af in 1997, 6,671 af in 1998, and 8,943 af in 1999 of allowable additional extraction. See Footnotes 17a and 18a on Table 10 Page 1c of 2 and 19a, 20a and 21a on Table 10 Page 1d of 2.
- 22b Excludes 8,357 af in 1995, 10,769 af in 1996, 9,658 af in 1997, 6,671 af in 1998, and 11,419 af in 1999 of allowable additional export. See Footnotes 17b and 18b on Table 10 Page 1c of 2 and 19b, 20b and 21b on Table 10 Page 1d of 2.

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY THE CITY OF RIVERSIDE (INCLUDING THOSE RIGHTS ACQUIRED AS SUCCESSOR TO THE RIVERSIDE WATER COMPANY AND THE GAGE CANAL COMPANY)

23a Excludes 8,390 af in 1996, 7,495 af in 1997, 6,671 af in 1998, 8,943 af in 1999, and 11,273 af in 2000 of allowable additional extraction. See Footnotes 18a, 19a, 20a, 21a, and 22a on Table 10 Page 1d of 2.

- 23b Excludes 10,769 af in 1996, 9,658 af in 1997, 6,671 af in 1998, 11,419 af in 1999, and 13,803 af in 2000 of allowable additional export. See Footnotes 18b, 19b, 20b, 21b, and 22b on Table 10 Page 1d of 2.
- 24a Excludes 7,495 af in 1997, 6,671 af in 1998, 8,943 af in 1999, 11,273 af in 2000, and 7,113 af in 2001 of allowable additional extraction. See Footnotes 19a, 20a, 21a, 22a and 23a on Table 10 Page 1d of 2.
- 24b Excludes 9,658 af in 1997, 6,671 af in 1998, 11,419 af in 1999, 13,803 af in 2000, and 9,541 af in 2001 of allowable additional export. See Footnotes 19b, 20b, 21b, 22b, and 23b on Table 10 Page 1d of 2.
- 25a Excludes 6,671 af in 1998, 8,943 af in 1999, 11,273 af in 2000, 7,113 af in 2001 and 13,263 af in 2002 of allowable additional extraction. See Footnotes 20a, 21a, 22a, 23a and 24a on Table 10 Page 1d of 2.
- 25b Excludes 6,671 af in 1998, 11,419 af in 1999, 13,803 af in 2000, 9,541 af in 2001 and 15,748 af in 2002 of allowable additional export. See Footnotes 20b, 21b, 22b, 23b and 24b on Table 10 Page 1d of 2.
- 26a Excludes 8,943 af in 1999, 11,273 af in 2000, 7,113 af in 2001 and 13,263 af in 2002 of allowable additional extraction. See Footnotes 21a, 22a, 23a and 24a on Table 10 Page 1d of 2.
- 26b Excludes 11,419 at in 1999, 13,803 at in 2000, 9,541 at in 2001 and 15,748 at in 2002 of allowable additional export. See Footnotes 21b, 22b, 23b and 24b on Table 10 Page 1d of 2.
- 27a Excludes 11,273 af in 2000, 7,113 af in 2001, 13,263 af in 2002, and 1,215 in 2004 of allowable additional extraction. See Footnotes 22a, 23a, 24a, and 25a on Table 10 Page 1d of 2.
- 27b Excludes 13,803 af in 2000, 9,541 af in 2001, 15,748 af in 2002, and 3,872 af in 2004 of allowable additional export. See Footnotes 22b, 23b, 24b, and 25b on Table 10 Page 1d of 2.
- 28a Excludes 7,113 af in 2001, 13,263 af in 2002, and 1,215 af in 2004 of allowable additional extraction. See Footnotes 23a, 24a, and 25a on Table 10 Page 1d of 2.
- 28b Excludes 9,541 af in 2001, 15,748 af in 2002, and 3,872 af in 2004 of allowable additional export. See Footnotes 23b, 24b, and 25b on Table 10 Page 1d of 2.
- 29a Excludes 13,263 af in 2002, and 1,215 af in 2004 of allowable additional extraction. See Footnotes 24a and 25a on Table 10 Page 1d of 2.
- 29b Excludes 15,748 af in 2002, and 3,872 af in 2004 of allowable additional export. See Footnotes 24b and 25b on Table 10 Page 1d of 2.
- 30a Includes 2,459 af of State Water Project water imported by Western and transferred to City of Riverside. See Table No. 17A of Watermaster Report.
- 30b Excludes 2,459 af of State Water Project water imported by Western and transferred to City of Riverside. See Table No. 17A of Watermaster Report.

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY RIVERSIDE HIGHLAND WATER COMPANY

See Report of Watermaster, Volume 1A, Table No. 3 - Total production from Volume 1A - Table No. 2.

- 1 Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27.
- 2 Maximum Allowable for any one year, not to exceed 130% of Adjusted Right.
- 3 Actual verified extractions from Table No. 3.
- 4 Adjusted Right was not effective until January 1, 1972; thus the Base Right for 1971 is as shown in Appendix B, Table B-1 of the Judgment.
- 5 Includes 463 acre-feet of additional extraction which are allowable under provisions of March 6, 1996, 9th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 6 Includes 463 acre-feet of additional extraction which are allowable under provisions of February 19, 1997, 10th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 7 Includes 463 acre-feet of additional extraction which are allowable under provisions of April 30, 1998, 11th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 8 Includes 2,041 acre-feet of additional extraction which are allowable under provisions of January 19, 1999, 12th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 9 Includes 567 acre-feet of additional extraction which are allowable under provisions of August 16, 2000 14th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 10 Includes 260 acre-feet of additional extraction which are allowable under provisions of February 7, 2001, 16th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 11 Includes 1,910 acre-feet of additional extraction which are allowable under provisions of February 6, 2002, 18th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 12 Includes 3 acre-feet of additional extraction which are allowable under provisions of February 6, 2002, 18th Amendment to the December 22, 1981 Western-San Bernardino agreement.

 Note: Annual Accounting of Extractions as required in Paragraphs V and VI of the Judgment.

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY RIVERSIDE HIGHLAND WATER COMPANY

- 1 Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27
- 2 Maximum allowable for the five-year period is the same as the five-year-period Adjusted Right.
- 3 Actual verified extractions from Table No. 3.
- 4 Adjusted Right was not effective until January 1, 1972; thus the Adjusted Right for the period 1971-75 is more than the Adjusted Right for subsequent five-year periods
- 5 Excludes 463 acre-feet in 1996 of allowable additional extraction. See Footnote 5 on Table 11 Page 1c of 2.
- 6 Excludes 463 acre-feet in 1996 and 463 acre-feet in 1997 of allowable additional extraction. See Footnotes 5 and 6 on Table 11 Page 1c of 2
- 7 Excludes 463 acre-feet in 1996, 463 acre-feet in 1997, and 463 acre-feet in 1998 of allowable additional extraction. See Footnotes 5, 6, and 7 on Table 11 Page 1c of 2
- 8 Excludes 463 acre-feet in 1996, 463 acre-feet in 1997, 463 acre-feet in 1998, and 2,041 acre-feet in 1999 of allowable additional extraction. See Footnotes 5, 6, 7, and 8 on Table 11 Page 1c of 2
- 9 Excludes 463 acre-feet in 1996, 463 acre-feet in 1997, 463 acre-feet in 1998, 2,041 acre-feet in 1999 and 567 acre-feet in 2000 of allowable additional extraction. See Footnotes 5, 6, 7, 8, and 9 on Table 11 Page 1c of 2.
- 10 Excludes 463 acre-feet in 1997, 463 acre-feet in 1998, 2,041 acre-feet in 1999, 567 acre-feet in 2000 and 260 acre-feet in 2001 of allowable additional extraction. See Footnotes 6, 7, 8, 9 and 10 on Table 11 Page 1c of 2.
- 11 Excludes 463 acre-feet in 1998, 2,041 acre-feet in 1999, 567 acre-feet in 2000, 260 acre-feet in 2001 and 1,910 acre-feet in 2002 of allowable additional extraction. See Footnotes 7, 8, 9, 10 and 1; on Table 11 Page 1c of 2.
- 12 Excludes 2,041 acre-feet in 1999, 567 acre-feet in 2000, 260 acre-feet in 2001, 1,910 acre-feet in 2002 and 3 acre-feet in 2003 of allowable additional extraction. See Footnotes 8, 9, 10, 11 and 12 on Table 11 Page 1c of 2.
- 13 Excludes 567 acre-feet in 2000, 260 acre-feet in 2001, 1,910 acre-feet in 2002 and 3 acre-feet in 2003 of allowable additional extraction. See Footnotes 9, 10, 11 and 12 on Table 11 Page 1c of 2
- 14 Excludes 260 acre-feet in 2001, 1,910 acre-feet in 2002 and 3 acre-feet in 2003 of allowable additional extraction. See Footnotes 10, 11 and 12 on Table 11 Page 1c of 2
- * Parentheses indicate that actual extractions are less than Adjusted Right.

See Report of Watermaster, Volume 1A, Table No. 3.

¹ Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27.

² Maximum Allowable for any one year, not to exceed 130% of Adjusted Right.

³ Actual verified extractions from Table No. 3.

⁴ Adjusted Right was not effective until January 1, 1972; thus the Base Right for 1971 is as shown in Appendix B, Table B-1 of the Judgment. Note: Annual Accounting of Extractions as required in Paragraphs V and VI of the Judgment.

2011-15 Excess Extractions 2005-09	S		(6,991)	*				0 *					(1,586) *					(5,405) *		

¹ Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27.

85

² Maximum allowable for the five-year period is the same as the five-year-period Adjusted Right.

³ Actual verified extractions from Table No. 3.

⁴ Adjusted Right was not effective until January 1, 1972; thus the Adjusted Right for the period 1971-75 is more than the Adjusted Right for subsequent five-year periods.

^{*} Parentheses indicate that actual extractions are less than Adjusted Right.

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY THE REGENTS OF UNIVERSITY OF CALIFORNIA

See Report of Watermaster, Volume 1A, Table No. 3.

- 1 Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27.
- 2 Maximum Allowable for any one year, not to exceed 130% of Adjusted Right.
- 3 Actual verified extractions from Table No. 3.
- 4 Adjusted Right was not effective until January 1, 1972; thus the Base Right for 1971 is as shown in Appendix B, Table B-1 of the Judgment.
- 5 See Footnote 2 of Table on Page 34.
- 6 Includes 58 acre-feet of additional extraction which are allowable under provisions of February 19, 1997, 10th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 7 Includes 54 acre-feet of additional extraction which are allowable under provisions of April 30, 1998, 11th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 8 Includes 50 acre-feet of additional extraction which are allowable under provisions of January 19, 1999, 13th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 9 Includes 88 acre-feet of additional extraction which are allowable under provisions of May 16, 2000, 15th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 10 Includes 81 acre-feet of additional extraction which are allowable under provisions of February 7, 2001, 17th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 11 Includes 82 acre-feet of additional extraction which are allowable under provisions of February 6, 2002, 19th Amendment to the December 22, 1981 Western-San Bernardino agreement.
- 12 Includes 82 acre-feet of additional extraction which are allowable under provisions of August 18, 2004, 21st Amendment to the December 22, 1981 Western-San Bernardino agreement.

 Note: Annual Accounting of Extractions as required in Paragraphs V and VI of the Judgment.

ANNUAL ACCOUNTING OF EXTRACTIONS FROM THE SAN BERNARDINO BASIN AREA AND DELIVERIES TO EACH SERVICE AREA BY THE REGENTS OF UNIVERSITY OF CALIFORNIA

- 1 Adjusted Right as determined and reported to the Court in the Annual Report of the Western-San Bernardino Watermaster for Calendar Year 1971 in Table No. 9, page 27.
- 2 Maximum allowable for the five-year period is the same as the five-year-period Adjusted Right.
- 3 Actual verified extractions from Table No. 3.
- 4 Adjusted Right was not effective until January 1, 1972; thus the Adjusted Right for the period 1971-75 is more than the Adjusted Right for subsequent five-year periods.
- 5 Excludes 58 acre-feet in 1997 of allowable additional extraction. See Footnote 6 on Table 13 Page 1c of 2.
- 6 Excludes 58 acre-feet in 1997 and 54 acre-feet in 1998 of allowable additional extraction. See Footnotes 6 and 7 on Table 13 Page 1c of 2.
- 7 Excludes 58 acre-feet in 1997, 54 acre-feet in 1998 and 50 acre-feet in 1999 of allowable additional extraction. See Footnotes 6-8 on Table 13 Page 1c of 2
- 8 Excludes 58 acre-feet in 1997, 54 acre-feet in 1998, 50 acre-feet in 1999 and 88 acre-feet of allowable additional extraction. See Footnotes 6-9 on Table 13 Page 1c of 2
- 9 Excludes 58 acre-feet in 1997, 54 acre-feet in 1998, 50 acre-feet in 1999, 88 acre-feet in 2000 and 81 acre-feet in 2001 of allowable additional extraction. See Footnotes 6-16 on Table 13 Page 1c of 2.
- 10 Excludes 54 acre-feet in 1998, 50 acre-feet in 1999, 88 acre-feet in 2000, 81 acre-feet in 2001 and 82 acre-feet in 2002 of allowable additional extraction. See Footnotes 7-11 on Table 13 Page 1c of 2.
- 11 Excludes 50 acre-feet in 1999, 88 acre-feet in 2000, 81 acre-feet in 2001 and 82 acre-feet in 2002 of allowable additional extraction. See Footnotes 8-11 on Table 13 Page 1c of 2
- 12 Excludes 88 acre-feet in 2000, 81 acre-feet in 2001 and 82 acre-feet in 2002 of allowable additional extraction. See Footnotes 9-11 on Table 13 Page 1c of 2
- 13 Excludes 81 acre-feet in 2001, 82 acre-feet in 2002, and 82 acre-feet in 2004 of allowable additional extraction. See Footnotes 10-12 on Table 13 Page 1c of 2
- 14 Excludes 82 acre-feet in 2002, and 82 acre-feet in 2004 of allowable additional extraction. See Footnotes 11-12 on Table 13 Page 1c of 2.
- 15 Excludes 82 acre-feet in 2004 of allowable additional extraction. See Footnotes 11-12 on Table 13 Page 1c of 2.
- * Parentheses indicate that actual extractions are less than Adjusted Right.

ANNUAL ACCOUNTING FOR SAN BERNARDINO VALLEY MUNICIPAL WATER DISTRICT EXTRACTIONS FROM SAN BERNARDINO BASIN AREA

- 6 Total import of State Water Project water in 2005 by SBVMWD was 35,329 acre-feet. However, only this portion was recharged in the SBBA.
- 7 Total import of State Water Project water in 2006 by SBVMWD was 35,329 acre-feet. However, only this portion was recharged in the SBBA.
- 8 Total import of State Water Project water in 2007 by SBVMWD was 56,406 acre-feet. However, only this portion was recharged in the SBBA.
- 9 Total import of State Water Project water in 2008 by SBVMWD was 40,444 acre-feet. However, only this portion was recharged in the SBBA.
- 10 Total import of State Water Project water in 2009 by SBVMWD was 38,297 acre-feet. However, only this portion was recharged in the SBBA.
- 11 6,006 acre-feet of State Water Project water were delivered within the SBBA in 2005. However, only 3,624 acre-feet of this amount resulted in "new" Return Flow not already included in Safe Yield Calculation.
- 12 6,160 acre-feet of State Water Project water were delivered within the SBBA in 2006. However, only 4,139 acre-feet of this amount resulted in "new" Return Flow not already included in Safe Yield Calculation.
- 13 13,064 acre-feet of State Water Project water were delivered within the SBBA in 2007. However, only 6,540 acre-feet of this amount resulted in "new" Return Flow not already included in Safe Yield Calculation.
- 14 9,336 acre-feet of State Water Project water were delivered within the SBBA in 2008. However, only 4,192 acre-feet of this amount resulted in "new" Return Flow not already included in Safe Yield Calculation.
- 15 10,329 acre-feet of State Water Project water were delivered within the SBBA in 2009. However, only 3,789 acre-feet of this amount resulted in "new" Return Flow not already included in Safe Yield Calculation.

¹ Adjusted right refers to Plaintiff exporters right to natural safe yield. Western does not share in the natural safe yield. Therefore, Western's Adjusted Right is 0. Western has the right, however, to extract water imported from the State Water Project for replenishment, pursuant to ParagraphsVI(b) 6 and XV(a) of the Judgment, and by agreement with the San Bernardino Valley Municipal Water District.

² Total import of State Water Project Water by Western for replenishment pursuant to the 2004 Western-San Bernardino agreement for additional extractional by Western prepared in accordance with Paragraph VI(b)6 and XV(a) of the Judgment.

³ Accumulated values beginning in 2004, reflecting total amounts of imported water and total extractions. Net credit represents the amount by which replenishment has exceeded extractions. The amount of Net Credit water may be extracted by Western at any time, or transferred to any plaintiff in the action to extract in addition to whatever rights such transferee may have. To the extent permitted by agreement with San Bernardino Valley Municipal Water District, if extractions have been made prior to replenishment, the Net Obligation reflects the amount of future replenishment that must be made.

⁴ Transferred to City of Riverside. See Table No. 10 of Watermaster Report.
