EXTRACTIONS
FROM THE SAN BERNARDINO BASIN AREA
FOR THE BASE PERIOD 1959 THROUGH 1963
BY CITY OF RIVERSIDE, THE GAGE CANAL COMPANY,
MEEKS & DALEY WATER COMPANY, AGUA MANSA WATER COMPANY,
RIVERSIDE HIGHLAND WATER COMPANY AND
REGENTS OF THE UNIVERSITY OF CALIFORNIA

INTRODUCTION

The settlement of the case of the Orange County Water District, Plaintiff, vs. City of Chino, et al, Defendants, being Case No. 117628 in the Superior Court of the State of California in and for the County of Orange, made necessary a settlement of the case of Western Municipal Water District of Riverside County, et al, vs. East San Bernardino County Water District, which was settled by stipulated judgment in Case No. 78426 entered in the Superior Court of the State of California in and for the County of Riverside on April 17, 1969.

In accordance with this judgment, an area lying upstream from the Bunker Hill Dike (San Jacinto Fault) within the San Bernardino Valley was delineated as the San Bernardino Basin Area.

Reference to the judgment in said Case No. 78426 entered in the Superior Court of said Riverside County, on Page 10 thereof, Paragraph V, entitled "Extractions from the San Bernardino Basin Area," in Subparagraph (a), entitled "For Use by Plaintiffs," recites as follows:

"The average annual extractions from the San Bernardino Basin Area delivered for use in each service area by each Plaintiff for the five year period ending with 1963 are hereby determined to be as set forth in Table B-1 of Appendix "B". The amount for each such Plaintiff delivered for use in each service area as set forth in Table B-1 shall be designated, for purposes of this Judgment, as its "base right" for such service area."

The plaintiffs listed in the judgment are: Western Municipal Water District of Riverside County, a Municipal Water District; City of Riverside, a Municipal Corporation, The Gage Canal Company, a Corporation; Agua Mansa Water Company, a Corporation, Meeks & Daley Water Company, a Corporation, Riverside Highland Water Company, a Corporation, and the Regents of the University of California.

Although these extractions were specifically excluded from verification by the judgment, the representatives of the Watermaster engaged to aid the Watermaster in the verification and tabulation of the extractions by other than plaintiffs also tabulated the extractions by Plaintiffs on the individual worksheets for the five-year period ending with 1963. This work has been included in this volume, entitled "Volume I, Part 1 - Extractions from San Bernardino Basin Area by City of Riverside, The Gage Canal Company, Meeks & Daley Water Company, Aqua Mansa Water Company, Riverside Highland Water Company, and the Regents of the University of California."

During the initial work, these tabulations were entitled "Plaintiff Exports." However, the Watermaster was not required to classify these extractions as to disposition and, for this reason, the original work within this volume, shown on Pages 1 through 93, has been retitled "Plaintiff Extractions" in place of "Plaintiff Exports."

The extractions from each well owned by each plaintiff have been summarized in Tables No. 2 through No. 6. A master summary showing the total extractions for each plaintiff for each year during the Base Period, with the five-year average totalized to show the extractions by the plaintiffs, is shown as Table No. 1. Indexes by both State well number and State Recordation number are also included.
