Plan Organization

Response

Information Resources

Yellow Pages

Approach

Requirements

- California Standardized Emergency Management System (SEMS)
- National Incident Management System (NIMS)

Emergency Operations Approach

- Establishes an organizational structure for managing any type of emergency
- Information that is helpful for managing an emergency situation is included in "yellow pages"
- Plan designed using flow charts to make it easy to review quickly

Emergency Levels

Level 3

• Any emergency that does not meet Level I or 2

Level 2

- Intentional Criminal Act
- Contamination, bomb threat, etc.

Level

- Major emergency event (large earthquake, etc.)
- Beyond the capabilities of the District
- Emergency Operations Center (EOC) Activated
- EOC activated automatically in certain circumstances

District Focus

Level 3

- Administration
- Engineering
- Information Systems
- Operations
- Resources
- Emergency

Level 2

- Administration
- Engineering
- Information Systems
- Operations
- Resources
- Emergency

District Focus

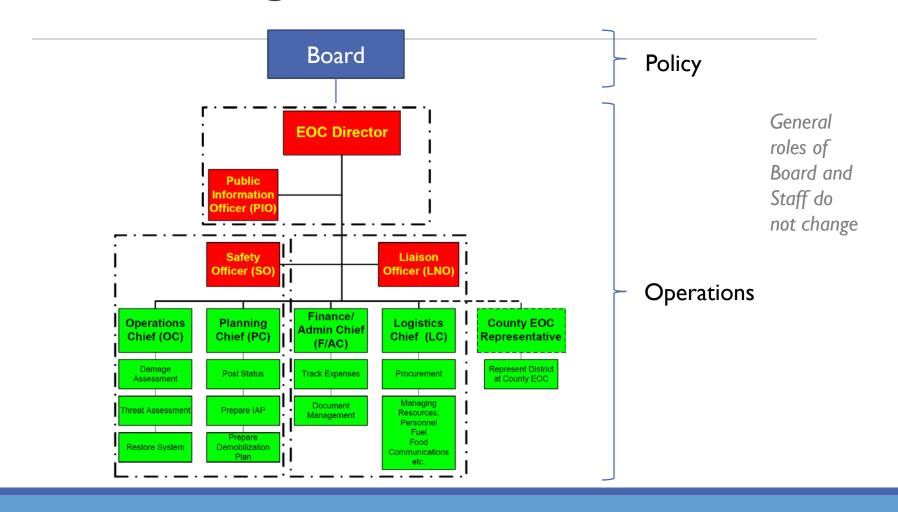

Emergency

Level I

Level 1 Organization Chart

Policy - Emergency Declaration

Level 3

Emergency declaration less likely

Level 2

Emergency declaration less likely

Level I

- Emergency declared by Board
- Staff work from Emergency Operations Center (EOC)
- Staff delegated some emergency powers by the Board until Board meeting can be called

Discussion Item 5.1 (Pg. 10)

Bob Tincher, PE MS, Deputy General Manager – Water Resources

Consider Purchase of State Water Project Turnout WR-23 to Use to Recharge the Colton and Riverside North Groundwater Basins

Staff Recommendation

Staff recommends that the Board of Directors forward this recommendation to acquire Turnout WR-23 from WMWD and MWDSC at a total cost to Valley District of about \$553,000 to the Board of Directors for consideration.

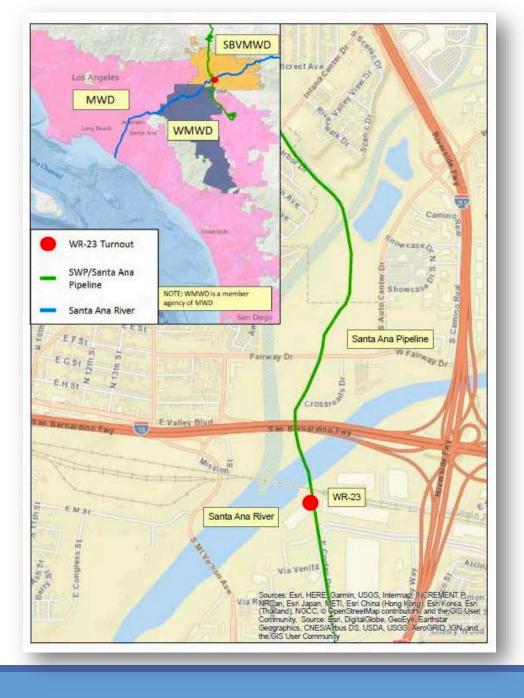

Individual and Average Groundwater Levels for Index Wells since 1969

Western-San Bernardino Judgment
Colton Basin Area and Riverside Basin in San Bernardino County

Action Plan to Comply with Water Level Requirements

- W	Status
Tool" mmediate Riverside Entities may shift their pumping to the SBBA until water	Riverside Entities may request this option at any time
levels are in compliance	to purchase WR-23
Near-term Valley District recharges Santa Ana River with SWP from WR-23	1. Valley District proposing to purchase WR-23 from MWDSC and WMWD. Expected completion by summer 2020. 2. Agreement with MWDSC and DWR also required and expected to be complete by summer 2020. 2. Proposal to be presented to the Board of Directors.
Groundwater modeling to determine the amount of water needed to increase water levels in Colton Basin Area and Riverside Basin Area in SB County Rialto-Colton Basin Groundwater Council	1. Agreement is being circulated amongst the parties should be complete by summer 2020. 2. They plan to prepare a groundwater sustainability plan (2021-22).
Cactus Basins	Valley District funded rectating with the Cactus detention basins owned by flood control. Will result in additional stormwater capture and facilitate SWP recharge. Complete 2021
Warm Creek Basins	from Flood Control. Flood cerims a new turnout to value" analysis. Would require a new turnout to deliver SWP water for recharge.
Imported water purchase by For Water Company	Water Company (FWC), TWO delay District's supply acre-feet of water outside of Valley District's needs of SWP water or surplus to Valley District's needs for recharge into the Rialto-Colton basin. Valley District is looking for potential supplies
Long-term Riverside North Aquifer Storag Recovery Project	e and Preliminary design complete. Working on permits through the Upper Santa Ana River HCP

METROPOLITAN AND WESTERN

VALLEY DISTRICT

Valley District will not charge either a fee to use the turnout in the future (MWDSC SWP Water)

Any use of the turnout must be scheduled with Valley District

Western receives \$128,055.37 for recent rehabilitation work of WR-23, at Valley District's request

Does not pay capital cost for turnout

Pays Western \$128,055.37 for recent rehabilitation work of WR-23, at Valley District's request

Ownership of Turnout WR-23 transferred to Valley District

Estimated Valley District Cost

Capital Cost	
Rehabilitation Cost	\$128,055.37
Integration into Valley District's Water Delivery System	\$424,944.63
Total	\$553.000

MWDSC/DWR/Valley District Agreement

- 1. Covers Construction, Operations and Maintenance of the turnout
- 2. DWR approves of the transfer of WR-23 from MWDSC to Valley District
- 3. DWR and Valley District give each other access to the site
- 4. Valley District agrees to pay DWR's costs
- 5. Notice of Exemption would accompany this item to a Board meeting

Staff Recommendation

Staff recommends that the Board of Directors forward this recommendation to acquire Turnout WR-23 from WMWD and MWDSC at a total cost to Valley District of about \$553,000 to the Board of Directors for consideration.

Discussion Item 5.2 (Pg. 77)

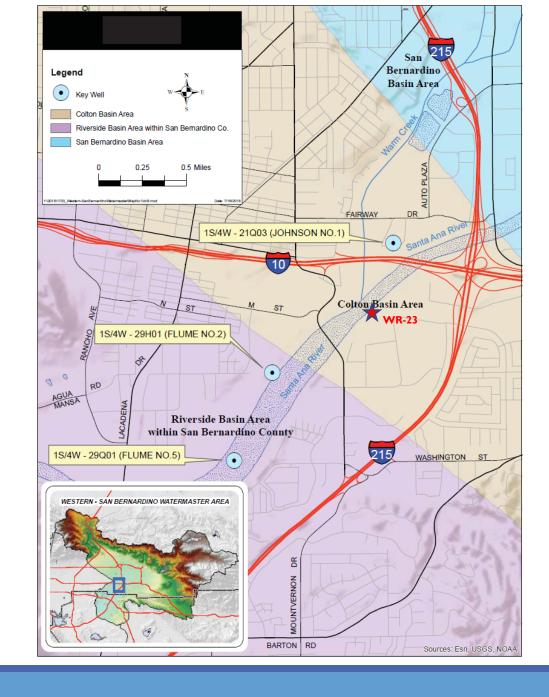

Wen Huang, PE MS, - Chief Engineer

Consider Santa Ana River Recharge Modeling and Testing with Geoscience

Staff Recommendation

Forward the Scope of Services for Conducting Modeling of Recharge Testing in the Riverside North Basin and Providing Support during Testing to the next Board of Directors' meeting for consideration.

Locations of the Key Wells

Scope of Services

Proposed Major Tasks:

- I. Refine Integrated SAR Model
- 2. Develop Recharge Scenarios and Conduct Modeling
- 3. Prepare Work Plan for Field Testing
- 4. Coordination and Data Management during Testing
- 5. Prepare Tech Memos and Provide Recommendations

Estimated Fees: \$77,513
